HEALTH MATTERS.

It would be unfair to assert, since the San Roque Hospital case has turned out to be anything but yellow fever, that the doctors who sounded the alarm have fallen into rediculo. On the contrary, it would be very desirable if the doctors could combine to create a great scare and thereby force the apathetic authorities into immediate action; something is needed to shake off the lethargy of the Government and extend the power and increase the resources of the Health Board. In another column we publish a communication from a passenger by the R. M. S. Neva; in a few lines he describes the "modus vivendi" on our great quarantine station in Martin Garcia. The facts produced are a disgrace to the Argentine Government. We hold over further communications on quarantine sufferings on board that floating palace the Jupiter. All this goes to show that in health matters and quarantine arrangements this go-ahead republic is a century behind the age.

To think that the several hundred thousand dollars spent to build a lazaretto on Martin Garcia Island have resolved themselves into two leaky "galpones" or sheds, more fit for stabling than for accomodating passengers from Europe; that this state of affairs has been tolerated for so many years and that this disgrace to our civilization and progress is liable to continue many years longer, is only to reflect on the utter apathy of a long suffering public and on the scant influence of the press. In the name of the hundred thousands who flock to these hospitable shores, we appeal to the National Government to build a lazaretto to meet such mammoth requirements and Immigration hotels to house so many thousands. This appeal we have made for years and we regret to believe that we are preaching in the desert and that nothing will be done until the eyes of the Government are some day forcibly opened by abuse and deeds of violence caused by such disorganization and utter lack of humanity.

Another important reform is needed in the Health Board, in an extension of its jurisdiction in hygienic matters to all parts of the Republic. Let the Government send to Congress a Bill making the Health Board an institution with branches all over the provinces and give it independent action, or at least a jurisdiction under control of the National Executive only. Such a course would give the members of the Board a more accurate idea of the serious responsibilities on their shoulders, enable them to legislate efficaciously from the Andes to the ocean, and give uniformity to the hygienic measures needed in moments of emergency. The President of the Health Board should move in these matters and urge the Government to spend, if necessary, five millions on a lazeretto, and reform the Board in "toto." Let us hope that such advice will fall on willing ears, but it is much to be feared that with the disappearance of all danger of epidemic will also disappear all hopes of reform.

THE COMING RACING SEASON.

Great as was the improvement in our turf in 1888, it is confidently expected that the superiority of the 1889 Season will be infinitely more marked. The grounds of this confident anticipation are not far to seek, and in addition to the natural and ordinary improvement in the breed and quality of its horseflesh which a country like this, (having for years past been steadily

BRITISH IMMIGRATION COMMITTEE.

Yesterday at 3 p. m. a meeting of the Committee was held, but as the attendance was very small, after reading the following letters, the meeting was adjourned to to-day at 3 p. m., when it is expected all those interested in the question of British and American Immigration will attend, as matters of importance will be brought forward. The following letters were read:—

Bahia Blanca, March, 5th 1889.
John Drysdale Esq.
B. Ayres.

Dear Sir,

I have the pleasure of informing you that I have already begun the allotment of farms for the settlers, who have commenced digging wells and erecting houses for themselves. This work, no doubt, will be slow for several reasons, but particularly for one reason of which more anon. I can assure you, however, that in spite of the change of climate, diet, and surroundings, they appear perfectly contented. On Sunday, they all went to mass, Father Gaughren officiating in a provisional chapel. Nevertheless we are brought face to face with a serious difficulty since we feel that all our efforts and all the efforts of our employees, all our energy is powerless in the presence of a considerable obstacle, to surmount which we appeal to you and the influential committee over which you preside. We allude to the facilities of transport. From the "guias" in our possession, we know that the greater part of the necessary articles for the feeding and housing the settlers have been already forwarded. We cannot in any case doubt of the good will of Messrs. Arnold, which firm you recommended, nor of Messrs. Sofredi, nor of any of the firms with which we have made arrangements. Yet, so far we have received nothing except what was sent with or before us from the Plaza Constitucion. What ever was shipped that or the following days has not arrived yet at Naposta. We have not even received the immigrants' luggage that was detained at Tapa, so that very many have been compelled to brave the weather with such clothing as they had on. Cleanliness requires such clothing to be changed. The result is there is no tobacco, no coffee, no buckets, no screws, and we have barely a provision of potatoes and biscuits for two days. I cannot believe that the Committee who accepted the serious and sacred duty of looking after these unfortunate settlers for 15 days, have forgotten this charge. But the truth is we cannot much

immigrants, we cannot attend properly to them, in fact we cannot count on giving them anything except meat—which they do not care for—if the situation be prolonged two or three days longer. The only remedy is to send immediately all that has been ordered for the colony. The serious delay is no doubt due to the lack of wagons for the special goods' train from Naposta to kil. 682½, and this for us is very serious, not only because a delay is occasioned, but also because in view of the great bulk of the goods probably arriving in one train, we shall be compelled to leave them exposed in the open camp for want of carts. At the present moment there must be between 12 and 15 wagons for the Viticola, and these wagons we shall not be able to unload with sufficient facility to prevent loss, which is detrimental not only to the interests but to the health of the settlers.

To overcome the difficulties of the situation we appeal to the patriotic energy of yourself and Mr. Casey, who promised to have the goods landed on our estate. We appeal, sir, in behalf of you countrymen who see bright prospects of success in your valuable protection and in the support of the Committee over which you proside.

Yours sincerely
P. A. GARTLAND.

Irish Colony, Naposta, March 5th
To John Drysdale, Esq.

Dear Sir,

For the first couple of days after we arrived here everything looked troubled enough, owing chiefly to the deficiency of the Government stores, the delay of the Railway Company in delivering the cargo and last, not least, the arrival of the immigrants on the ground after nightfall. In the dark it was, of course, impossible to erect the tents, so all—men, women and children had to camp out "al intemperio," which in plain English, means nothing more or less, than the grass for a bed and the blue sky of heaven for a roof. Less pleasant than poetic I assure you. Happily the weather, which was threatening, did not break, and the fatigues of the journey promptly put a stop to the disorder which for a moment was enough to have chilled the stoutest heart. The morning's sun brought a salutary reaction, the young men chasing partridges and rabbits, whilst the more serious ones pitched their tents and the women cooked breakfast. In a few hours all was changed—health, happiness and order reigning supreme ever since.

A small wooden church was erected as by enchantment and Father Gaughen celebrated Mass on Sunday; Dr. Aleu, member of the Municipality, and myself acted as acolites. Yesterday the men started in gangs for the digging of wells and erection of houses. There was no necessity for using pressure or force of any kind; each one started off spade or pick in hand and fell to work with might and main. The first house will be finished to-day and this will save much loss of time in going and coming daily, as the farm lots are located at a considerable distance from the present canvass town. The small but fertile stream El Saladillo flows close by the encampment, but good water is also found close to the surface—11 to 12 yards. Tremendous enthusiasm prevailed yesterday when the engineers handed over the farm lots. The colonists, ignorant of the measurement of each, required of the manager how many families one lot was intended to maintain, and when informed that according to printed agreement only one family could be put on each, the air rung with their cheers for Gartland and the Committee of English residents of Buenos Ayres. I seized the occasion to remind them that by steady patient labor the debt would be paid off in a few years and they would then be their own landlords. No rackrents. No crowbar brigade. (Loud and continued cheering.) As for feeding they have a superabundance of meat and biscuit—tea, sugar, and rice being likewise distributed with no niggardly hand. The women and children feel very much the lack of milk, whilst the men call loudly for tobacco.

Thirteen milch cows are daily tied up to the 'palenque' and many of the settlers, both male and female, are evidently "au fait" at the task, but by the time the calves are taken away but little remains, and it is freely said that one good Kerry cow would give more of the precious white liquid than the whole 'corral' full of native cows.

Mr Goodall, the British Consul of Bahia Blanca, visited the encampment on Saturday having heard that the colonists were all starving. I took him round to the tents explaining to the people who and what he was and telling them to speak out now if they had any cause of complaint. One and all manifested their gratitude for what has been done for them both here and in B. Ayres. He told them they were now on their way to independence and that milk was scarcer in this country than champaigne, returning to town shortly after impressed most favorably by what he had witnessed and observed.

The presents of clothing etc. sent by Mrs. Lace and the other charitable ladies are only just coming to hand now. They will be distributed next week to the most deserving and necessitous families. All the colonists are enquiring when their brethren are expected by the next steamer, but Gartland's partners are not anxious to take them unless landed direct from the ship's side, which is a serious matter for the committee to consider. The ground is good beyond question and the proximity to the port is an immense advantage for the sale of their crops. The natives have taken kindly to the new comers helping them in everything and even sharing with them their 'mate' and tobacco.' The Government stores can't last over 8 days although Sr. Sunbiat's contract was for 15!!

T. H. M.

Dear Mr. Mulhall:

I am told you are on the committee of Irish Immigration, and therefore I write a line to ask you to suggest something for those who continue to come to the Convent. It is impossible for us to receive them in any shape now that the school is open and we do not know to whom we may address them as the office in Reconquista is closed. Some wish to join the colony; who is charged with that department? Is there any shed or galpon now where they can spend the night? to avoid the Police Court where some families were compelled to go. At nine o'clock last night we had to engage accommodation in the neighborhood for seventeen. This cannot go on as you well understand. When we had the means, and use of the poor school we did all we could, but now every available corner is occupied.

Many have obtained employment, but will not be paid till the end of their month.

meantime? These are questions we are called on to answer several times a day.

Hoping you will find some means to meet the emergency, I remain,

Yours sincerely,
A. FitzGerald.

THE GOLD PREMIUM

WAR WITH FRANCE?

BOULANGER'S TRIUMPH

Cannes, Jan. 26.

Latest telegrams inform us that the gold premium has risen in Buenos Ayres to 54 per cent, notwithstanding the prodigious importations of gold during the past year. This is precisely what I maintained in the editorial columns, and I am still convinced that you might drain the Bank of England without discovering the means of bringing the currency nearly up to par. The experience of various nations shews that an inferior currency invariably displaces that which is better. Thus a silver currency in Austria has expelled gold, and uncovered paper-money expels every form of bullion. If you could find anything viler than shinplasters they would be expelled in turn. I wasted a good deal of time and ink in trying to impress this fact on our readers in Buenos Ayres, for everyone believed it was merely a "crank" of mine, and that Dr. Pacheco was quite right in saying "If you want to improve the currency you have only to get the balance-of-trade in favor of the country, that is to make exports exceed imports and get paid the difference in European gold."

This theory has been exploded so many years that it is pitiable to see how firmly the merchants of Buenos Ayres still believe it. If pushed to its legitimate issue it would imply that you had only to prohibit imports of all descriptions, export as much as possible, and thus enrich the country. It is the Lopez-Francia system of Paraguay, and has been tried in recent years both in Chile and Brazil, with most signal failure, as the Finance Ministers of those countries admit.

The sound principle of modern finance is to let imports grow as much as possible, and leave the exports to take care of themselves. An exactly reverse policy is maintained at Buenos Ayres, and the gold premium has steadily risen in three years to 54 per cent. Three years more, if you follow the same policy, will inevitably see it at 100 per cent. and so on.

But, you will say, fiscal policy has nothing to do with it; the real cause is the emission of more bank-notes. Well, if you had a proper fiscal policy there would be no need for these fresh emissions. The increase of imports, in keeping with that of immigration, would swell the Treasury and impart more confidence. Distrust is measured by the height of the gold premium, and it matters little how many millions you may draw from the Bank of England, or how much your exports may amount to, so long as the public has a well-grounded apprehension of future paper issues. If it were possible to pass a law and enforce it, whereby any Minister, Senator or Deputy conniving at increase of paper-money should be shot in Plaza Victoria the premium would fall at once.

The mournful fact is that some of the ablest men in Buenos Ayres are either covertly or openly supporters of the theory that Paper-money has been an unequalled factor in building up the Republic, and that the more you have the better. This infatuation will some day bring you a terrible undeception.

Cannes, 27th Jan.

An Englishman long resident in this country assured me to-day that if this day's election at Paris results in favor of Gen. Boulanger we are certain to see a war between France and England. Perhaps that honest man, Prince Bismarck, would not be displeased. It may at all events be food for moralising that, after all the efforts England has made to widen public liberties, overthrow tyranny and support Bible Societies in every part of Europe, besides promoting good hotels at the fashionable resorts, like Cannes, there is not a kind word or friendly feeling on her behalf from the Neva to the Tagus. This arises in great measure from jealousy, partly also from her barbarous rule in Ireland, and in a considerable degree from the arrogance and insolence of 90 per cent of all Englishmen and Englishwomen who travel on the Continent. The remaining 10 per cent are as kindly, well-bred, amiable people as you could find all the world over, but their good behaviour is insufficient to correct the evil impression caused by the others.

But it by no means follows that Gen. Boulanger will find G. Britain an easy nut to crack, or that the hatred of European nations against the English will help him much in such an enterprise. He may rush into a war with England as rashly as Louis Napoleon did with Germany, and with like success. The worst of it is that he may be carried along, nolens-volens, by the fury of popular acclaim. I am told by the same Englishman that in 1879 a war was debated at the Elysée, whereupon Pres. Greevy said "The devil is in us, but I will try to stave off the danger by sending Waddington to London", and by this means all was amicably arranged.

France is in such grave financial troubles that a war would cause tremendous confusion. Nevertheless, experience shews that financial considerations never yet averted a war. We may fairly ask, what is to be the pretext or object of the war? The Egyptian question is still a sore point, and the condition of Ireland is also a matter that would cause 100,000 swords to leap from their scabbards. Frenchmen have a Quixotic element which prompts them to go about, redressing grievances, "enderezando tuertos", and constituting themselves the patrons of oppressed nations.

But, whatever the pretext or object of the war, it is sincerely to be regretted that Ireland is at present the scene of such atrocities that the people are in a temper to welcome any deliverer. If Boulanger landed a division of 5,000 men there, the question of Home Rule, Land Tenure and the Wearing of the Green would be definitely settled in 20 minutes.

Cannes, 29th January.

The most remarkable event in European history since the fall of Sedan is the overwhelming victory of Boulanger over the French Republicans. It is a new departure, and may lead to vast changes in the political world. Nothing else is spoken of in every European Capital, and the effect is on the whole hopeful, as the stocks have simultaneously risen both in Paris and Berlin. But we must not be too sanguine, for France has "taken a leap in the dark" the consequences of which it is

Boulanger has already scored 931,000 votes at various elections in the last 12 months, which shews what a hold he has of the French people. I mentioned in my letters from Bordeaux and Orleans, last October, that everybody was then speaking of him, some in love, others in anger, but leaving the impression on one's mind that he was "the inevitable". As usual, the London papers took up the wrong view, and asserted that Boulanger had no chance of winning the Paris election. Some Vienna Bankers, it appears, were better informed, and have made large sums of money by "betting on the baker".

The King of Italy in his speech yesterday to the Chambers at Rome urged the necessity of prompt and suitable military preparations. Prince Bismarck has said nothing yet. The English newspapers, and I suppose the Cabinet, are stunned by the victory, just as Pitt, who died 24 hours after hearing of the battle of Austerlitz. All the Foreign Office department will have to be on the alert for eventualities. The world is moving faster than Downing Street.

Meantime nobody knows exactly what Boulanger means to do first. Yesterday poor M. Floquet and his colleagues went to the Elysée, and presented their resignation to President Carnot, who refused to receive it. Bodies of cavalry were stationed all round the approaches to the Legislature, as if anticipating that the "Brave General" would make a rush, and imitate Oliver Cromwell by turning out the Deputies. But the General is in no hurry; he has France at his back, and has no reason to hasten the dissolution of the present Government, which he declares to be a pack of rogues.

Messrs. Carnot and Floquet have resolved to call a General Election, the date of which will probably be March 24th. They hope to postpone the "mauvais quart d'heure" for two months longer. In that case they must adjourn the Chamber, for it is a solemn mockery to have a Legislature which the nation detests going through the form of passing laws

QUARANTINE PURGATORY.

L'Hotel Universelle
B. Ayres, March 6, 1889

Sir

I should like to make public through the medium of the *Standard* the disgraceful arrangements now existing for those condemned to remain in quarantine on Martin Garcia. The Royal Mail steamer Neva arrived in the outer roads on Friday afternoon last. We were then told to be in readiness to proceed in the launch to the island, at six the next morning. The new arrivals to this republic soon learnt the Argentine policy of "paciencia and mañana", as the steamer did not fetch us till long after the appointed time. When we reached the island our baggage was placed in a large galpon. We proceeded to the quarantine hotel where we found the following notice placarded, being a specimen of English as she is spoke on Martin Garcia. I will produce it verbatim:—"The passengers are prevented that the disinfection of their luggages will take place at 3 o'clock p.m per consecuent those luggages must be opened and covered with a cuberture on the place of which the machines of disinfection are ready. They are recuested also not to go over the limit marked with that purpose."

All being weary after a trying day we went to bed early, but sleep was out of the question, the dormitory was a long barn partitioned off into about twenty bed-rooms a-side, in which the first and second-class passengers were placed; mosquitoes literally swarmed, and we all presented a sorry spectacle the next morning. It had been a stormy looking night, and at about midnight down came the rain and we then discovered to our cost the roof to be an utterly useless covering, the rain coming in everywhere and drenching the rooms and their contents. The majority now rushed forth carrying their bed clothes into the passage, where we utilized what few dry spots we could find and tried to sleep till the morning. In passing I may remark that the beds were made the next morning without the trouble being taken to dry the bed clothes, the laws of Health in this Quarantine Island being so rigorously attended to! Our luggage fared badly too, as the roof of the galpon leaked more if possible than that of the dormitory, many portmanteaux standing inches deep in water, with the result that many of their contents were completely ruined. The only redeeming feature of that never to be forgotten sojourn on the island was the courtesy we received at the hands of the doctor in charge there who did his best to improve matters which were alas! beyond redemption.

I must apologise for thus trespassing on your valuable space, but I consider the matter required publicity, for I feel convinced that the hardship we have endured the last four days might have proved most disastrous to any delicately disposed passenger.

Believe me
Yours truly

"AUDI ALTERAM PARTEM."

Carmen de Areco, 4th inst.

To the Editor of the *Standard*:

Dear Sir:

We, the neighbors on the Dooner estancia, Carmen de Areco, were surprised to hear of a most disgraceful letter which appeared in the *Herald* of the 26th ult, attacking the character of the well-known and charitable lady, Mrs. Dooner, who owns the estancia.

It would, perhaps, be as well to treat such a lying epistle with the silent contempt which it deserves, as Mrs. Dooner is so well known that no one of common sense who knows her could for one moment believe such calumny. However, our feelings are strong on this matter; and, as people who do not know her might believe the affecting story about the "poor widow woman," we think it our duty to make the truth public.

This same widow had been for years on the estancia as third owner in a large flock of sheep in one of the best puestos; she also had "manadas" of mares and close upon 200 head of cattle, for which she was never charged one cent of rent. Since her husband died she had taken to keep a most disorderly house, it being the common resort of a set of young fellows who went there to dance and gamble, and so the wiring of the estancia was continually cut, as was also the neighbours, to make short passes for these visitors.

The flock also was not minded at all, as no peon would stop with the *poor widow*, and as her son was never at home to mind anything, it was completely neglected Things came to such a pass that the manager of the estancia, after repeated warnings, told her she must leave. She at once flatly refused to do so and also told the owner she would neither leave nor look for another place. She was notified through the Juzgado, giving her four months to look for a place. As no neighbour would have her at any price, knowing the woman's character, she stayed on, and after giving the authorities great trouble, she was ordered out by "La fuerza publica." She certainly pretended to be sick, but no hand was laid upon her, and the Oficial de Policia was only firm and did just what he was ordered by his superiors. She mounted her own carriage, (this poor widow) cursing horribly all the time, and that same night had a dance at the puesto she moved to, and, we know for a fact, danced jigs until she was tired. We guess well who wrote the objectionable letter in the *Herald*, as the wife of the author sent the cutting out of the paper the same day it was published, accompanied by a most insulting letter, to Mrs. Dooner.

Hoping this will not prove too long for insertion in your valuable paper, we remain,

Yours most truly,
(Friends and neighbors of Mrs. Dooner)

ENGINEER VOYER'S REPORT ON THE SAN CRISTORAL AND TUCUMAN LINE. RAILWAY-PLANS AT THE BOARD OF PUBLIC WORKS. SUSPENSION OF TRAFFIC ON THE PACIFIC LINE. ACCIDENTON THE BUENOS AYRES AND ROSARIO RAILWAY.

Engineer Voyer has drawn up a report on the progress of the surveys in the line from San Cristobal to Tucuman. He says that the plans from kils 100 to 400 have been completed. No difficulties were found in making up these plans. The minimum radius in the curves is 800 metres. A bridge will be thrown across the Salado at kil. 129. The line crosses the river in a northwesterly direction, 3 kilometres beyond the Fortin Rivadavia, and 13 kilometres south east of Fortin Tortado. On both sides of the river, and from kil. 100 to 150 the scenery is beautiful and the soil most fertile. From 150 to 229, the river is studded with islands, and the Pampa lands are excellent. At kil. 229 the wood-lands begin and stretch as far as kil. 640, say at 40 kils. from Tucuman.

The plans for the branch-lines of the Buenos Ayres and Rosario, Tucuman Extension, of the branches from Irigoyen Station to Santa Fe, and from Galvez to Los Molteros have been submitted to the Board of Public Works for approval. Also the plans for the Chumbicha, Tinogasta and Andalgala Railway, Messrs. A. Carranza and Co's concession.

The manager of the Pacific Line has notified the public that owing to the inundations, no traffic, goods or passengers, will be allowed further than Soler Station. Every effort will be made to repair the bed as soon as possible.

The B. Ayres and Rosario train no. 10 last Saturday met with a rather singular accident. The last waggon, which was being sent to Campana for repairs went off the rails and was dragged about 800 metres before the driver thought fit to stop. The track was so much injured that the trains following were not allowed to run over it, and passengers had to be transhipped.

Messrs. Murrietta & Co. have advised the Finance Minister that they have shipped in the Siddons and Dryden materials for the Central North Railway Extensions to amount of £27,780-15-10 Stg.

Dr, Pacheco, the new Minister of the Interior, had a long conference yesterday with Dr. Araoz, President of the National Railways Board, and the President of Public Works, the Assessor of the latter Board, and the Inspector of Railways, in reference to the railways now working.

In late London papers we find many remarks in regard to the rapid increase of 3rd class passenger traffic in the rail-

nied by a stiff fall in the first and second-class passenger traffic. *Money* says:—This subject, which was pretty rife six months ago, has cropped up again. The dividends for the past half-year on English Railway stocks are, so far as they have been published, fairly satisfactory. It was expected that they would show improvement, and they have, with one prominent exception, either done so or held their previous positions. Only those lines wich live principally upon the traffic of London have been non-progressive, and among these the South-Eastern has fallen back. The reasons for this stagnant state of affairs are not very far to seek. It is obvious that the traffic grows year by year, and that the mileage run increases also. Last half-year, for instance, the Brighton Company ran 130,000 more train-miles, and the South-Eastern Company 450,000 more than in the corresponding half of 1887. Twelve years ago the Brighton Company carried 2,300,000 first-class, 3,500,000 scond-class, and 23,000,000 third-class passengers. Last year the numbers of the first-class passengers had fallen off by 700,900, of the second-class by almost a like number, while the numbers of the third-class had risen to 34,500,000.

Messrs Sanchez, Igarzabal and Co., concessionaries of the railway from San Juan to Cabra-Corral, Salta, have sent to the Government for approval of the plans and surveys of the first section of the line.

EDITOR'S TABLE

Those interested in British and North American emigration to the River Plate are requested to attend the meeting of the Committee to be held to-day at the office of Messrs Samuel B. Hale and Co., at 3 p. m.

There was most consoling news from Montevideo yesterday: The Health Junta there don't believe a word about yellow fever being in this city, and scorned to meet to discuss the question. The Montevideans are such good judges of yellow fever that we may now rest and be thankful on this side of the water. There was nothing locally fresh in the Y. F. way yesterday. The poor official doctors seem to be pumped dry in the way of new professional terms for the complaint; and it is not fair of the public to expect that a fresh name can be found for it every day. Were we umpires, we would unhesitatingly give a gold medal to the "medico" who started the funny term "internal perforation"!! It's grand. It's sublime.

Those interested—and we hope their name is Legion—in the British and American Benevolent Society should not fail to attend the Annual Meeting to-day, at the British Consulate, at 4 p.m. We unhesitatingly say that, of all the charitable institutions in this kind-hearted city, there is not one that does more genuine and unostentatious good, or which deserves more liberal support than this admirable and modest institution. The English-speaking community should arise and push it up to the position it so well deserves.

On Sunday next there will be a Special Collection at both services in the Scotch Church, in aid of the funds of the church.

We have again to thank the Red Star Agency for sending us late English papers yesterday.

The Annual Athletic Sports of the employes' of the Great Southern Railway will take place at Lanus on the 25th inst. The programme, as usual, contains a Flat Race of 300 yards for strangers, Entries for this competition should be sent to the Hon. Sec. on or before the 12th inst.

The *Censor* warns the public against three quack doctors who pretend to cure or rather counteract deafness by means of a wonderful ear-trumpet which, by some jugglery, works beautifully while the patient is in the "doctor's" study, but when he takes it home to his expectant family (what a high place in the next world do not those deserve who suffer in this the appalling daily martyrdom inflicted on all around him by a deaf man—a deaf woman is worse—in the bosom of a family!) it is found to be bogus and useless.

A display of the noble art of self-defence in which several English and North Americans will take part, is announced to come off in the La France saloons on Monday next.

The hair-dressers, to recoup themselves for the advance of 20 per cent. they lately gave their assistants in wages, have clapped on *fifty* per cent in their charges to customers. Pleasant fellows the followers of Saint Louis, who is, no doubt, ashamed of them. The proper way to pay them off is to only get one's hair cut every six months, and wear it "a l'idiot"—alias Oscar Wilde.

The Governor of Formosa has advised Government to establish a Custom House, Post-office, etc., at Port Aguirre, to push on that place and facilitate trade.

The Rielbergh system of telegraphing and telephoning on the same wire has been proposed to Government, and has probably a chance of a trial.

The Misiones Question has always borne a strong resemblance to the famous Schleswig Holstein muddle. The latest news about it is that the Council of State in Rio are opposed to the very sensible proposal to divide the territory in dispute and be done with it. The Foreign Ministers of this country and Brazil are to meet in Montevideo at the end of this month to have a palaver on the eternal subject.

The papers yesterday reported a very shocking case of abduction and false marriage (in San Telmo church) in respectable life at the South end. The victim is the orphan daughter of an officer, and the culprits are a married man and his groom (also married); the latter infamous scoundrel, at the instigation of the former, playing the part of bridegroom.

Letters from Rosario report the most "desenfrenada" water-throwing there during Carnival, and a consequent number of rows and murders. Rosario ought to be ashamed of itself: but we greatly fear it is n't.

The "temporada lirica" is now the one object in life in fashionable circles. It will begin a little earlier than usual this year, as Patti will be here at the end of this month.

A Canal from this city to La Plata is the latest enterprising idea, and a right good one it is. It would make the two ports one, and not a bit too large—if large enough—for the future trade of the capital of the republic.

Race of the soil. When the murder of a poor boy in an exchange [illegible] in Calle Reconquista took place last year the police, by what right it is hard to see, seized whatever money the murderers had left in the place, and the owners are now trying to have it restored to them. It should have been returned to them at once, or rather it should never have been touched at all.

Heavy dining and deep drinking are no longer as fashionable in England as they used to be. But the Scotch have not improved in this respect as fast as their neighbors. Lord John Lawrence used to tell the story of a friend of his who, when in Scotland, called upon an acquaintance between eleven and twelve o'clock in the morning. "He is at dinner, sir," announced the servant who met him at the door. "At dinner! You don't mean that he is dining at this hour in the day?" "Yes, he is, sir; but it's his yesterday's dinner!"

Bright news from the Modern Babylon: A Company with a capital of half a million sovereigns has been formed there for pushing the Electric Light in this quarter of the habitable globe. With lots of Electric light and motors we'll soon be quite another people here. Gas, steam and horses are all too old-fashioned, and must go.

For a wonder the Southern Railway has just won a lawsuit and bowled over a lady who brought an action at law against it for making a widow of her in a first-chop smash. We cannot think with a comic paper that lots of ladies would thank the Company for the change in their condition, but instead of going to law with it.

There is much gabble about a beauty of a certain class having obtained surreptitious admittance to one of the balls at a highly fashionable Club during Carnival. She was discovered through incautiously addressing an admirer of her's, whose admiration did not go the length of allowing her to remain in the room with his lady relatives and friends; so he told the Committee, and she was politely bundled out.

Visitors to the "Zoo." at Palermo should give the two bears there a wide berth. Their cage is not over secure, and Mr. Holmberg, the Director of the Gardens cannot, owing to want of funds, put them where they ought to be, in a deep pit, as in all European Zoological Gardens. The possibility of how many people might be eaten alive should the brace of Bruins get loose some day makes the hair stand on end with icy horror. It is announced that Lord Mayor Seeber has bought a fine lot of animals for Palermo in Europe.

The Queen of Song embarked for Buenos Ayres on Tuesday, at Lisbon, on board the French steamer Portugal, and will be here at the end of the month.

Government has handed over 1500 mts as a subvention toward building a new church at Chuput for our Welsh countrymen there.

A discussion is going on as to whether the men of the Fire Brigade should or should not be armed with Remington rifles. To the English and North American mind nothing can be more intensely ridiculous than to see such a corps armed in such a way; but the idea of "la autoridad" of any kind being able to make itself respected without deadly weapons, has yet a very long way to travel before it gets even half way into the Spanish or Spanish-American mind. The poor Bomberos are not, strictly speaking, within the bellicose circle of "la autoridad", yet they are armed with rifles! If a fire could be shot down, it would be comprehensible.

The city of Caa-Cati in Corrientes does not appear to have its proper share of all the nice new Greenbacks that are flying about. At a "velada" given there last week for the Sarmiento Monument Fund, all that came out of it waa *twenty two* Nats and a few odd cents. The presence of the cents shows the religiosity with which the money was counted.

In reference to two highly interesting letters on the Samoa question which we have received from an esteemed German subscriber, we beg to say that 1st, they are not signed ; 2nd, they are too monstrnously long for our columns, and 3rd our London Correspondent's views on the question in point are those of the vast majority of English newspapers.

The pick of the CAMP

Soil and situation unexceptional, most interesting affair, tremendous future, 3 hours from the Capital, return the same day.

In Zarate In Zarate In Zarate

The best camp in the North, comprising the beautiful pleasure and productive mansion, belonging to Sr. Miguel Lima, the sale of which is caused by this gentleman's absence in Europe; it is sufficient to announce the situation and ownership of the camp to give an ample idea of its value. Fattening camp with very abundant soft grass like granillo, cardo azual, alfilerillo, trebol de carretilla and olor.

To give an idea of the quality of the soil, suffice it to say that, when there is no pasturage on the adjoining camps, in this there are fattening 1700 steers and 6000 sheep, paying a dollar a head for cattle and 2 cents for sheep. This splendid camp of 1233 hectares, distant a league and a half from the Estacion Lima, F. C. Rosario and 30 squares from the village chacras and the Colonia Lima, bordering for some distance on the river Areco which joins the Barradero a few squares off and the Barradero joins the Parana.

All this superb camp is perfectly fenced with 6 strings of steel posts and half posts of finandubay every 5 varas and wiring in the centre. Divided into 4 potreros, each with a large trough, water deposit, cement trough etc.

In one potrero there are 100 hectares of alfalfa, 700 fruit and forest trees, encalyptus magnolia, palms, gardens, etc. In a word, it is an Eden!

Attention, speculators and capitalists! Prepare for a surprise! Up to the present time there has never been such an important business with such an insignificant base. Base $325 the hectare. Absolute sale! We repeat that Sr. Lima is going to Europe. Remember that the Sr. Salado, lands have been sold at $200 per hectare and $300 to 450 have been given for Centros Agricolas.

Recently in Pilar 150 cuadras of camp have sold for $1000. This notable business has 150,000 cedulas, series M. Comparatively, therefore, it can be had with little money. On the basis fixed, the purchaser can remain with the mortgage for the price of the cedulas, the day of the contract. The payment to be made half down and half at 4 months with 8 per cent per annum.

For plans and further particulars apply at our office 153 San Martin. Those who desire to visit the camp will meet at the Lima station on the arrival of the first train a carriage which is at their disposition on Thursdays, Saturdays and Sundays. The auction will take place in our office San Martin 153 on **Thursday 14th March 1889** at 3 p.m.

Further particulars later.

Although the gold premium has apparently touched high-water mark at 158, at least for the moment, it cannot be said that the stiff features of the market have in the slightest relaxed; on the contrary, they might be considered even more accentuated, as many thought that the moment the advance would cease a decline would inevitably set in. Such has not been the case. The advance has been stemmed, but there has been no decline, nor even the prospect of one, and the bears are clinging on to a bare glimmering of hope that something may turn up unexpectedly to change the course of the speculation. As for stocks, they seem to be irretrievably sunk in lethargy. There is absolutely no demand, except for the sovereign stock, and that only at very low rates. It is strange to see with what indomitable courage holders face the situation, hanging on to the heels of a falling market, which is dragging them slowly but surely down with it; and strangest of all is it to see the fatality with which they prefer to sacrifice old stocks to the countless new concerns lately started, and which they seem determined to sell at a premium, although many could now hardly be disposed of at a moderate discount. There can be no doubt in the world that stocks are steadily sinking, and, although in some sense the fall is accelerated by speculation, it is in great part due to the surfeited state of the market. Holders may think it strange, but it is none the less true, that stocks quoted some time ago, and perhaps still, at a heavy premium, will not command much over a par price now if realized.

The gold operations at the first hour barely embraced 1½ million dollars, of which 279,665 were taken up for cash, opening at 157.80, fluctuating between that rate and 158, and finally closing at the latter rate. For Saturday quotations were a bare trifle lower, closing at 157.90. For end of month something over three quarters of a million were disposed of, opening at 157.60, fluctuating between 157.40 and 157.80, and closing at 157.70. Thus it will be seen that matters were excessively dull, which was further emphasized by the apathy prevailing in stocks, Cedulas being barely noticed and National Bank Shares only brightening up for a brief moment. All other values were neglected.

The following is a summary of operations effected this morning at the first ring:—

Mr. M. Munro was welcomed to-day on his return per s.s. Neva from England. He has a very large circle of friends in this country, who will be glad to hear of his return.

The subscription-lists of the Banco Hipotecario de la Capital have been closed, the issue having been subscribed for nearly ten times over. All petitions under 100 have been granted entire, whilst those above that figure will be subjected to a 'prorata' distribution.

Mr. Alfred C. Flanders was welcomed on 'Change to-day. He has arrived from Europe in a fine, 500-ton steam-lighter or "chata," specially constructed under his orders for the firm of Messrs. Dreyfuss Freres and Co., of this market. She measures 153 feet in length, carries five hundred tons of cargo on 8ft. draught, and goes with 55-horse-power engines at the rate of nine miles per hour. She came out under command of Mr. Flanders, and made a fast passage of 39 steaming days.

We have received by the mail the report and balance-sheet of the River Plate and General Investment Trust Company. The dividend declared is at the rate of 5 o/o per annum. The trustees proposed the calling up gradually of the share capital which was passed.

Prospectuses of the Mortgage Company of the River Plate Ld. for further issue of £200,000, 4½ o/o Debenture stock, at £103, 10 o/o, have also been received. The funds of the company will be administered and the River Plate by the River Plate Trust Loan and Agency Company Ld., and it may be said that the two companies will be virtually one with increased capital.

Another prospectus received is that of the Argentine Republic Land and Trust Co. of which Mr F K Smythies is promoter. The capital is fixed at £100,000 in £10 shares, and the objects of the company are the purchase and sale of land in the Argentine Republic.

At afterhours it was rumoured that M. Cittadini had received a most alarming telegram from Italy, but as none of the bankers had anything, the rumour had no effect. We heard, however, of cautionary telegrams being received by certain parties.

The Duke de Licignano, Italian Chargé, left to-day for Italy. He was accompanied to the Mole-head by Mr. Stoppani, manager of the Banco de Italia, and other friends. Mr. Rocca, the great Italian broker, also left to-day.

Business at the second hour was even flatter than in the morning, and little was done, although the premium looked a trifle weaker all round. There was little or no variation in rates, the closing quotations being 157.90 for to-morrow and Saturday, and 157.60 for end of month. Stocks looked terribly depressed and dull, and even National Bank Shares, which at the first hour showed a trifling improvement, fell off to 258. The heaviest seller this evening was an official broker, but it is said to be only a feint to keep prices down until large lots of Shares are secured. Cedulas were pretty generally dealt in, but only to small amounts.

There was nothing new to-day about the Obras Company's Shares, which continue to be quoted at about 32.

Exchange shews as yet no improvement. The rates were quoted to-day at 47 1/16-⅛d, though some drawers hold out for 47d. Francs were passed at 4.97 on Paris, and marks at 4.01½ on Hamburg.

The s.s. Dom Pedro has arrived in the Mount with 550 passengers and 1400 tons cargo, including 1400 boxes sugar; mails by Eolo.

The s.s. Amerique has arrived in Montevideo from Marseilles with 800 passengers and 500 tons cargo.

We take the following from the *European Mail*:—

"The *Morning Post* has a forcible leading article against both English and Irish emigration to South America. It points out that the several circumstances that operate to the advantage of the Italian, Spanish and French settlers in the La Plata region tell the very reverse way in the case of the British immigrant. 'The climate is such as he is not accustomed to; the chief productions of the soil, and the most profitable, are such as he has not been used to raise in the United Kingdom, and his agricultural experience is of no great help to him, for he must learn almost everything afresh in his new home. In a word, the Englishman who elects to settle in any of the South American Republics will miss all and everything that tends to promote his material welfare and social comfort in transoceanic lands colonized by men of his own race, speech, and faith.' All we can say is, the *Morning Post* does not know the Argentine Republic."

The lumber trade between the Plate and North America has assumed almost phenomenal proportions, as can be seen from the following export figures supplied by Messrs. Morton and Sons' valuable circular:—

Million feet

	White Pine	Spruce	Pitch Pine
Total shipments to Bs. Aires during December 1888.	4,731	5,103	8,922
Previously exported since Jan. 1st, 1888.....	40,978	30,248	46,025
Total for 1888.....	45,709	35,351	54,947

Of 146 vessels loading for River Plate ports at date of circular, only some 20 were receiving general cargo; all the rest were taking in lumber. This is all the more astounding in a country with such vast wealth of timber in her own forests.

The following are the passengers who have left for Europe per s.s. Alfonso XII.: S. J. Unzue, C. Pellegrini, E. Acebal, P. Jauregui, P. Jorba, R. Fragueiro, E. Dimet, Dr. P. S.
